

“WHAT THE HECK IS THIS DILTIAZEM?”

This Diltiazem chart depicts which brand name can substitute for one another.

1. Once daily:

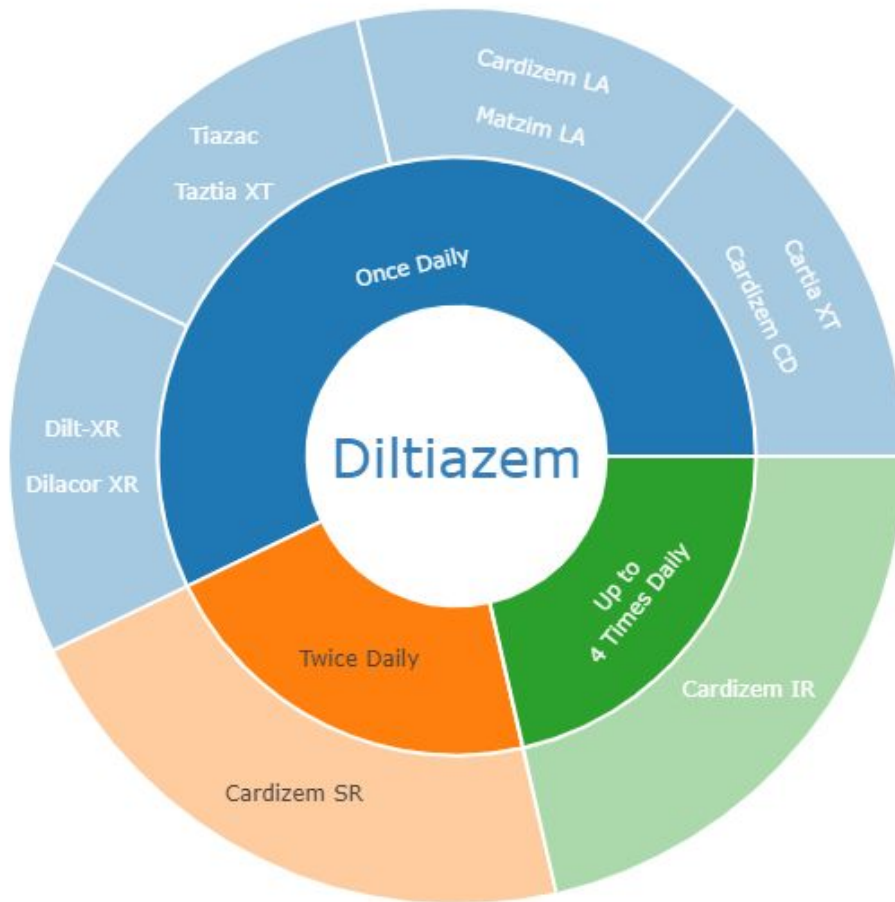

Dilacor XR and Dilt-XR can substitute for each other since they're in the same piece, but they **CANNOT** be substituted interchangeably with Taztia XT, Matzim LA, Cardizem CD, etc.

1. Twice daily:

Remember Cardizem SR is strictly for **TWICE DAILY**

1. Up to 4 times daily:

Since Cardizem IR requires more frequent dosing due to its release mechanism, it also means that it needs to be taken more often.
